USER GUIDE

Chekyar

Track received and issued cheques with due-date reminders

Chekyar keeps your received and issued cheques with the amount, counterparty, Persian (Jalali) date and photos of both sides, and reminds you before each one falls due. It works offline with no account, and everything stays on your own phone.

Due-date reminders
no cheque slips your mind

Encrypted photos
front and back, kept out of the gallery

Offline and locked
no internet, PIN and fingerprint

App version 1.2.4 · Guide date October 2026 · Android 7.0 or later

Questions this guide answers

1. How do I install and set up Chekyar?
2. How do I record a cheque?
3. How do due-date reminders work?
4. What do I do when a cheque is cashed or bounces?
5. What do the dashboard and cheque list show?
6. How do I lock the app, and what if I forget my PIN?
7. How do I back up and move to a new phone?
8. What is the full version and how do I buy it?
9. What if something goes wrong?
10. Where is my data kept?
11. Where do I get support?

> The app's screens are in Persian. Button names are shown in Persian as they appear in the app, with the English meaning in brackets.

Before you start: You need an Android phone running Android 7.0 or later. To buy the full version, the Cafe Bazaar app must be installed and signed in to your account. The app itself needs no internet.

1 Install and set up

How do I install and set up Chekyar?

1. Install Chekyar from Cafe Bazaar: **cafebazaar.ir/app/ir.chekyar.chekyar**
2. Open the app and tap «شروع کنیم» (Let's start).
3. Allow **notifications**. If settings show «دقت زمان‌بندی پایین است» (Low timing accuracy), tap it and also allow **Alarms & reminders**.
4. In «تنظیمات» (Settings), turn on «قفل با رمز» (PIN lock) so nobody can see your cheques without permission.

> **Tip:** Chekyar has no sign-up or account. Without the notification and Alarms & reminders permissions, due-date reminders cannot arrive on time.

2 Add a cheque

How do I record a cheque?

1. Tap «ثبت چک» (Add cheque).
2. Choose the type: «دریافتی» (received, from a customer) or «پرداختی» (issued, I gave it).
3. Enter the **amount** in Toman and the **due date**; both are required. The amount is also written out in words underneath, so a missing or extra zero is easy to spot.
4. Counterparty name, bank, cheque number, the 16-digit Sayad ID, issue date and notes are optional, but they make searching easier.

5. Under «عکس چک» (Cheque photo), photograph «روی چک» (front) and «پشت چک» (back), or pick them from the gallery.

6. Under «یادآوری سررسید» (Due-date reminder) choose one or more times, then tap «ذخیره‌ی چک» (Save cheque).

The new-cheque form

Jalali calendar with shortcuts for today and one to three months ahead

Tip: Photos are encrypted and visible only inside Chekyar, not in your phone's gallery.

3 Due-date reminders

How do due-date reminders work?

Each cheque can have one or more reminders: on the due date, or 1, 2, 3, 7, 14 or 30 days before. The notification arrives at the time you set in settings.

- **Reminder time:** the time of day the notification arrives.
- **Default reminder for new cheques:** so you don't have to choose every time.
- **Reminder sound:** the phone's default sound, one of your ringtones, or silent.
- **Send test notification:** if it arrives, notifications are working.

> **Tip:** Reminders are set again automatically after the phone restarts.

4 Cheque status

What do I do when a cheque is cashed or bounces?

Open the cheque from the list. For a pending cheque you will see these buttons:

- **«وصول شد»** (cashed) for a received cheque, or **«پاس شد»** (cleared) for an issued one
- **«برگشت خورد»** (bounced)
- **«خرج شد»** (endorsed, received cheques only) if you passed the cheque on to someone else
- **«باطل»** (cancelled)

Tapped the wrong one? Tap «بازگشت به در انتظار» (back to pending). Use the pencil to edit and the bin to delete. «اشتراک‌گذاری مشخصات» (Share details) sends the cheque details to someone.

Cheque details with the amount in words and status buttons

The cheque list with search and filters

Important: Deleting a cheque does not give back a slot in the 10-cheque trial, and a deleted cheque cannot be recovered.

5 Dashboard and list

What do the dashboard and cheque list show?

- **Dashboard:** receivable and payable totals, the balance of pending cheques, cheques due in the next week, an overdue warning and a chart of due dates over the next six months.
- **«چک‌ها» (Cheques) list:** search by name, bank, number or amount; filter by type (all, received, issued) and status (pending, overdue, settled, bounced).

Dashboard: receivables, payables and balance

Due dates over the next six months

> **Tip:** If the dashboard shows an overdue cheque, set its status so your balance stays correct.

6 Lock and security

How do I lock the app, and what if I forget my PIN?

- **PIN lock:** a 6-digit PIN to open the app.
- **Fingerprint / face unlock:** if your phone supports it.
- **Auto-lock:** immediately, or 30 seconds, 1 minute or 5 minutes after leaving the app. There is also «همین حالا قفل کن» (Lock now).
- **Block screenshots:** content is also hidden in the recent-apps list.

Forgot your PIN? Tap «رمز را فراموش کرده‌اید؟» (Forgot PIN?) on the lock screen. Android asks for your phone's screen lock (pattern, PIN, password or fingerprint);

after that you set a new PIN and your cheques stay untouched.

The lock screen with a 6-digit PIN

Lock and reminder settings

Important: Anyone who knows your phone's screen lock can reset your Chekyar PIN, so keep it private. If the phone has no screen lock, this reset does not work.

7 Backup and new phone

How do I back up and move to a new phone?

Your cheques are stored only on this phone, so back up now and then, and always before changing phones.

1. On the current phone: Settings → «ساخت فایل پشتیبان» (Create backup file). Set a password and keep the file somewhere safe (for example your computer or your own saved messages).

2. On the new phone: install Chekyar from Cafe Bazaar, copy the file over and tap «بازیابی از فایل پشتیبان» (Restore from backup).
3. Sign in to Cafe Bazaar with the same account and in Chekyar tap «خرید نسخه‌ی کامل» → «بازیابی خرید» (Buy full version → Restore purchase).

> **Important:** Without the backup password the file cannot be restored, so write it down. Restoring replaces the data currently on the phone, and «حذف همه‌ی اطلاعات» (Delete all data) cannot be undone.

8 Full version

What is the full version and how do I buy it?

- **Trial:** up to 10 cheques with every feature. Cheques you already recorded never lock.
- **Full version:** unlimited cheques for a one-time payment, with no monthly subscription. At the time of writing it costs 295,000 Toman; the purchase screen in the app shows the final price.

1. Make sure the Cafe Bazaar app is installed and signed in to your account.
2. Settings → «خرید نسخه‌ی کامل» (Buy full version) → «خرید» (Buy).
3. Cafe Bazaar handles the payment itself; Chekyar never sees any card or bank details.

9 Troubleshooting

What if something goes wrong?

Problem	What to do
Reminders don't arrive	Allow notifications and Alarms & reminders, then try «ارسال اعلان آزمایشی» (Send test notification). On phones such as Xiaomi, Huawei and Samsung, set battery optimisation for Chekyar to "Unrestricted". Also check that the cheque itself has a reminder selected.
"Cafe Bazaar is not installed on this phone"	Install Cafe Bazaar, sign in to your account and try again.
The full version isn't active after reinstalling	Sign in to Cafe Bazaar with the same account and tap «بازیابی خرید» (Restore purchase) or «بررسی دوباره‌ی خرید» (Check purchase again).
"The trial quota is used up"	Existing cheques keep working; buy the full version to add new ones.
I recorded a cheque wrongly	Open the cheque and edit it with the pencil button.
I forgot the backup password	That file cannot be opened. If the old phone is still available, make a new backup with a new password.

10 Your data

Where is my data kept?

- Chekyar has no account, sign-up or server. Cheques, photos and settings stay only in the app's private storage on your phone.
- Cheque photos are stored with AES-256 encryption.
- The app shows no ads and has no analytics or tracking tools.
- Its only outside connection is asking Cafe Bazaar about your purchase status.
